We hereby confirm the closure of 62 emission certificates (62 tons of CO₂e) to offset the CO₂e emissions caused in 2020 by the management of Naturata Logistik eG. The emission certificates are verified by TÜV-Nord Cert GmbH, generated on Soil & More International's compost project in Egypt and South Africa.

The certificates have been decommissioned on the Markit Environment, TÜV-Nord Cert or Credible Carbon registry.

Soil & More International B.V.

A handwritten signature in blue ink, appearing to read 'AJ van den Bos', is written over a horizontal line.

Soil & More International compost projects not only avoid GHG emissions, but also promote the recultivation of desert areas through the use of compost.
