Soil & More International BV
Transportweg 7
2742 RH Waddinxveen
The Netherlands

to:
NATURATA Logistik eG
Waltersberg 20
97947 Grünsfeld
Deutschland

This is to confirm the retirement of 68 emission certificates (68 tons CO₂e) to compensate the CO₂e-emissions caused by the administration of Naturata Logistik eG in 2017. The emission certificates have been verified by TÜV-Nord Cert GmbH, generated on Soil & More International's composting projects in Egypt and South Africa.

The certificates were retired at the Markit Environmental and TÜV Nord-Cert Registry

A handwritten signature in blue ink, appearing to read 'T. Bandel', is located to the left of the date and name.

26. June 2018
Tobias Bandel, Managing Partner
Soil & More International BV

Soil & More International's Composting projects don't only avoid CO₂e but support the re-cultivation of desert areas by means of the applied compost.
